About Us

TELE World FZCO based in Dubai U.A.E, have been in the forefront of the New and Used Mobile Phone industry.

We are regarded as one of the most reputed and leading mobile phone traders in U.A.E, engaged in bulk distribution and export all major brands of mobile phone and its enhancements.

Teleworld FZCO is one of the country's most trusted value-added suppliers of smart phones . Through relationships cultivated for over a decade, we source new and used mobile devices directly from carriers, manufacturers and big box retailers. With a total workforce of 103 employees and further growing, we aim to remain as leaders and pioneers in the trading of this ever growing vast range of products and industry.

We have been long associated in the sales of world leading brands such as Apple, Samsung, LG, Sony Ericsson, Motorola, Blackberry, Nokia and HTC. Our vast supply and sales network covers almost all corners of the globe.

Mission

We aim to build a successful and mutually beneficial business relationship with all our partners of trade, thus further enhancing our commitment to excellence in growth and expansion of our organization and with full recognition to our continued commitment and excellence.

Vision

We aspire to be known as the most admired, one stop IT distributors in UAE by bringing in quality and high demanded products.

“Universal Device Grading Standard [UDGS]

***“Purpose of this document is to define used
Mobile Phone device grading standard which
is still***

***Very much subjective to the person who is
performing an inspection and deciding on the
Cosmetic grades.”***

Our Grading Scale is precisely defined:

What does “Grade A++” mean?

Cosmetic Rating 96% to 100%

- ✓ The handset has been fully functional and is in full working condition.***
- ✓ Overall Perfect condition i.e. like almost new.***
- ✓ Near perfect viewing area/front.***
- ✓ A device in very good condition with minimal wear to the screen, back cover or chassis.***
- ✓ Very light signs of wear which may include few hairlines not be visible from arm's length under.***
- ✓ Normal lighting condition.***
- ✓ This being used device Battery condition may not be as same as brand new device***
- ✓ No indentation, cracks or scratches of any kind***

A+ GRADE STOCKS

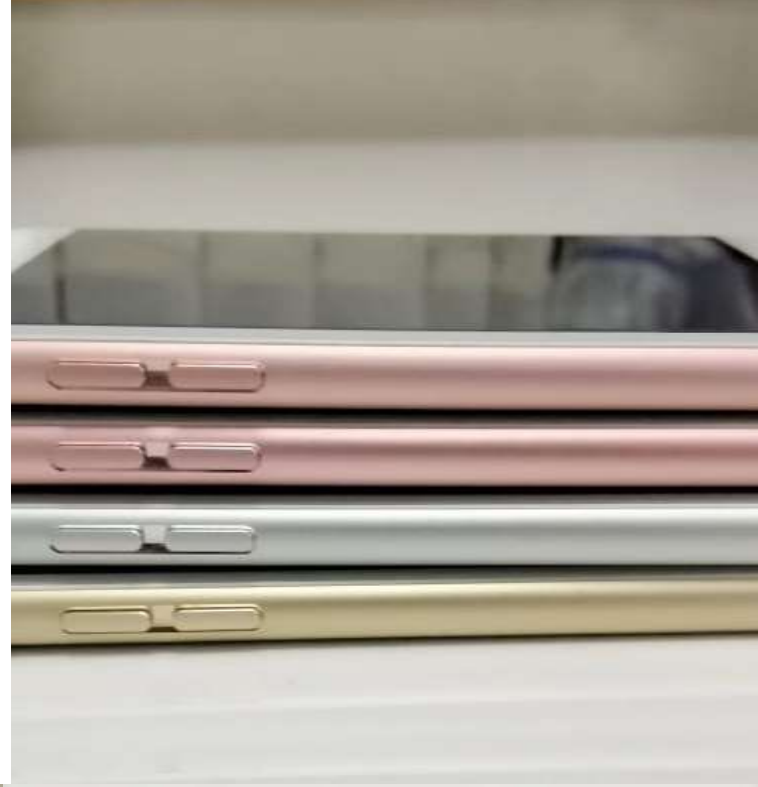

What does “Grade A+/A” mean?

Cosmetic Rating 85% to 95%

- ✓ The handset has been fully functional and is in full working condition***
- ✓ The handset is in very good condition and will have minimal signs of use and uncovered upon close inspection or rotating them under the light.***
- ✓ The screen, sides and back of the handset may show some signs of usage such as very light***
- ✓ Scratches or one small dot due to general use or only light hair lines in back side or apple logo.***
- ✓ No indentation, cracks or scratches of any kind.***

A+/A GRADE STOCKS

What does “Grade A/B” mean?

Cosmetic Rating 75% to 90%

- ✓ 0 to 4 small scratches may fall under Grade A/B Category or one dent but not the deep ones.***
- ✓ The handset has been fully tested and is in full working good condition.***
- ✓ The screen, sides and back of the handset may show some signs of usage such as scratches or***
- ✓ Scuffs but they are not always shown all around the phone. This will not affect the functions of the phone.***
- ✓ In most cases it will have dings small dents and wear on their ports, corner, and edges***

A/B GRADE STOCKS

APPENDIX

Cosmetic Rating: is calculated keeping brand new device as a reference. If Cosmetic Rating is 100% means device is same as Brand New from Cosmetic Point of view. In other words cosmetic rating also denotes how close the used device is compared to the brand new phone. So if we say cosmetic rating is 95% for any particular device would mean device falls under Grade A. Negative points are assigned to different kinds of Cosmetic Defects helping us to ascertain Cosmetic rating of any particular used device.

Teleworld FZCO offers quality reconditioned mobile phones devices with warranty all our handsets are electronically tested and graded by our in-house team using the best in class electronics diagnostic systems from phone check coupled with a human QC and cosmetic grading process to ensure our customers always get the best possible devices with the most accurate and consistent grading.

Batch Grading Definition

A+ = Mix color of 100% A+ as per define grading.

A = Mix color of 100% A as per define grading.

B = Mix color of 100% B as per define grading.

A+/A = Mix of 50%A+ and 50% A Grade as per define grading.

A/B = Mix of 50% A and 50% B Grade as per define grading.

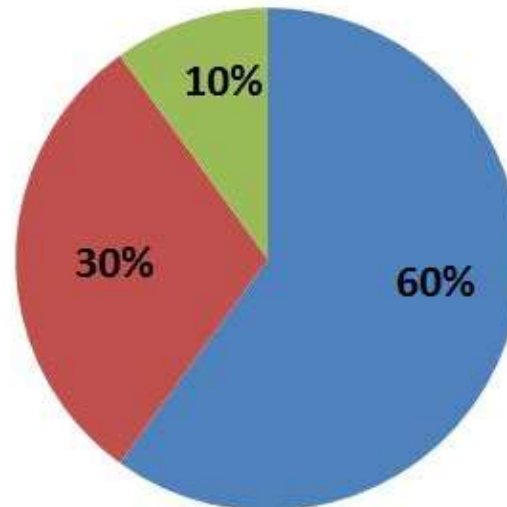

✓ We are holding largest stock in middle east 10K+ units stock always ready fully tested and check by our qualified technical team and softwares.

✓ We source directly from carriers and manufacturers to ensure always get consistent supply.
